Dear Colleagues:

The Ohio Commission on Minority Health announces the availability of funds to support **FY 24 Minority Health Month (MHM) grants through its MHM RFP – Round 1**. Grant funds will not exceed \$4,000 per applicant agency and funding level is based on the availability of state funding. The Commission will accept only ONE application per 501 (C) (3) agency.

Created in Ohio in 1989, Minority Health Month has been replicated as a national celebration since 2000. While we believe that the phenomenal participation over the years exemplifies the continued importance of this 30-day campaign, please pay close attention to the following aspects of planning and implementation including but not limited to:

- Assuring that while MHM is developed to reach minority communities, it serves all Ohioans.
- Providing virtual and in-person MHM programming is allowed.
- Notifying the public of any changes in dates, locations of activities etc., after the closing date for the calendar of events is the sole responsibility of the grantee.
- Budgetary shifts without approval through a budget revision will result in nonpayment.
- Each applicant must conduct at least two separate activities on two separate days during April 2024.
- Applicants are required to complete a Proposed Event Form (MHM Activity Sheet in MHGM) for each planned MHM event. (This form is located at the end of this RFP document); and
- Each funded grant must implement a Satisfaction Survey for **each** event. Applicants are welcome to use the Commission's Satisfaction Survey form which is located at the end of this RFP document.
- Each applicant must collect participant demographics for **each** event. As grantees will be expected to report on demographics in the final program report.

ELECTRONIC APPLICATION PROCESS - Minority Health Grant Management (MHGM) System

All applicants must use the automated grant application and reporting system. **Applicants must use Google Chrome to access the MHGM system.** Prior grantees must update their log in passwords before accessing the system.

New applicants must complete a MHGM New User Registration form to access the system, it is important to allot time for this registration to occur.

Pre-recorded technical assistance sessions on how to access, register and complete a grant application as well as RFP technical assistance are available on the Commission website at www.mih.ohio.gov on the Grant Opportunities page.

If selected for funding, approved applicants must submit a final program and fiscal report with support documentation for expenditures, an overview of participant demographics and all satisfaction surveys in the MHGM system.

We strongly encourage you to: 1) Read the Request for Proposal; 2) Read the MHGM Applicant User Guide; 3) Listen to the pre-recorded MHGM system Technical Assistance session 4) participate in the Commission Grant Application Technical Assistance webinars for this grant type.

We strongly advise that you allot sufficient time to allow any questions you may have to be submitted via email and responded to, prior to the application deadline. Staff are only permitted to answer questions via email during open rounds of funding. Typically, responses are posted within 1-2 business days of receipt. **Please send questions to minhealth@mih.ohio.gov.**

Please note, technical assistance questions will not be answered over weekends prior to the application deadline. Questions posed over each weekend prior to submission will be answered the next business day. Therefore, please submit questions in a timely manner, as described earlier.

Please also note, that regardless of the type of event and whether there are other sponsors, the Commission's interest is in the promotion of good health and disease prevention. All activities must support this goal.

Lastly, to be able to implement healthy food demonstrations, to include food selection and food preparation activities, such activities must be conducted by a Licensed Dietician. The food demonstration should be "hands on" and provide a transfer of knowledge as documented through an evaluation tool.

The deadline for submission for this funding opportunity in the MHGM system is 11:59 pm, July 24, 2023.

You have our sincere appreciation for the services you provide to improve the health status of Ohioans. We look forward to your participation in virtual and/or in-person Minority Health Month 2024.

Sincerely,

**Ohio Commission on Minority Health
Request for Proposal
Fiscal Year 2024
Minority Health Month Grant**

BACKGROUND

In 1989, the Ohio Commission on Minority Health developed the concept of a high-visibility campaign designed to focus on health awareness and disease prevention. In 2000 Minority Health Month became a national celebration. This 30-day campaign, held in April, consists of numerous activities designed to solicit the interest and participation of minorities or providers of health services to minority populations. The minority population is defined as **economically disadvantaged and includes targeting the following groups:**

- **African Americans**
- **Asian American/Pacific Islanders**
- **Hispanics/Latino Americans**
- **Native American/ American Indians/ Indigenous people**

While the month's focus was designed to reach minority Ohioans, services are provided to anyone who presents for appropriate services.

Demonstration of a positive impact on health knowledge, attitudes and/or practices is an expected outcome of all funded activities.

Minority Health Month, established annually by gubernatorial proclamation, focuses attention on the health of Ohio's minority populations. The purpose of the month is to:

- Promote healthy lifestyles.
- Provide crucial information to allow individuals to practice disease prevention.
- Showcase the resources for, and providers of, grass-roots health care and information.
- Highlight the resolution of the disparate health conditions between Ohio's minority and non-minority populations.
- Gain additional support for the on-going efforts to improve minority health year-round; and
- Increase the opportunity to collaborate with other community resources locally.

CRITICAL ELEMENTS FOR MHM ACTIVITIES

The following sections outline critical elements of all MHM activities to include virtual and in-person activities. The Commission reserves the right to reduce the requested funding level if the applicant is non-responsive to the criteria set forth in this Request for Proposal.

Diseases/Conditions

Priority will be given to applications that address one or more of the six diseases/conditions that constitute areas of concern for economically disadvantaged minority populations:

- Cancer
- Cardiovascular diseases, primarily hypertension
- Diabetes
- Infant mortality
- Substance abuse
- Violence

For MHM only, the Commission will consider funding projects that address other diseases and conditions that disproportionately affect minorities in Ohio based on documented need.

Target Population

The Commission is interested in funding projects that are culturally sensitive and target economically disadvantaged African Americans, Asian American Pacific Islanders, Hispanics/Latino Americans, or Native American Indians. Some activities may target a specific segment of the minority population (e.g., men, women, children, teens, senior citizens).

Additional targeting may include those at greatest risk for a specific disease or condition. Therefore, age, gender, occupational, environmental, and/or geographic needs may be critical planning elements.

Performance Standards

All proposals must satisfy the following minimum performance standards. Please provide detailed information in your proposal addressing how each standard will be met.

- **A minimum of two separate events on two separate days in April 2024** is required per applicant. **Separate means events are provided on different days.** In Person events and food demonstrations must be participatory or interactive in nature and be designed to teach or transfer skills or knowledge through an experientially based, “hands-on” approach.
- Provide an alternative plan that addresses issues such as weather, speaker cancellations, date change, no show, venue change or low attendance.
- All events should be age and culturally appropriate, and linguistically specific (i.e., language accessible to the target group).
- Events must be held in a healthy and safe environment to include the provision of MHM programming in virtual and or in-person manner such as webinars, zoom meetings, MS Office Team Meetings, or similar web based and multiple line teleconference call – in platforms.
- Grantees must complete and submit one final program and fiscal report (to include support documents) which is due in MHGM on the date listed in the AOT, if funded.
- Events should be educational, focused on **health awareness** and **disease prevention**.
- Events where **early detection and disease identification** activities are provided must incorporate appropriate protocols (pre-screening and /or referrals). Activities must also:
 - ❑ Be medically and technically accurate.
 - ❑ Be conducted in a clinically safe environment utilizing standard/universally (acceptable) precautions.
 - ❑ **Include a referral and follow-up process for persons with abnormal screenings.**
 - ❑ Include self-help instruction.
 - ❑ If performing mammography screenings, grantees must follow Commission guidelines for mammography screening activities. Mammography guidelines are available on the Commission website under the MHM tab.
 - ❑ Show costs based on the number of persons screened; and
 - ❑ If invasive procedures will be provided the applicant must:
 - a) Provide evidence of compliance with licensure standards for the State of Ohio.
 - b) Provide documentation of appropriate liability insurance coverage. Failure to do so may result in non-approval/payment for services.

Transportation

- Public transportation is reimbursable (i.e., bus passes, uber vouchers, taxis, etc.) for program participants.
- Mileage for agency vehicles is reimbursable under administrative costs only.
- Car rental and reimbursement for gasoline is an unallowable expense.

Incentives

- No cash incentives or awards are allowable.
- Gift cards are allowable and must have a description of how they will be distributed based on participation in program activities.
- Gift cards may not be used to reimburse speakers.

Food

- **Refreshments, sit-down meals, or catering services ARE NOT reimbursable under this grant.** Only events that contain food demonstrations are reimbursable under this grant.
- Events that include **food demonstrations** must be accompanied by transference of knowledge (i.e., handouts, recipe cards, cookbooks, etc.) and client participation.
- A Registered Dietician/Licensed Dietitian must conduct the education and food preparation. (Note: a caterer or chef cannot approve and supervise such events).

Other Guidelines

- **Commission funds must not be used to pay for celebrity chefs or food for said chefs to prepare food.**
- **Commission funds may be used to pay for social media.**
- **Please note that retail sales of products are prohibited at MHM events.**
- Events that are defined as **workshops, training sessions, virtual education sessions**, etc. must verify and document that the content is age, gender, culturally and linguistically appropriate for the target population. Documentation must be included in proposals to verify the qualifications of speakers.
- All MHM activities must be conducted during the month of April 2024.
- Ensure that the dates you choose are realistic, check the availability of space and cost to reserve your date **before** you submit your proposal. This will help you avoid rescheduling and budget problems before and during MHM.
- Minority Health Month events must occur at times appropriate for the target population. For example, agencies should not schedule activities for families between 8 a.m. – 5 p.m., Monday through Friday, when many family members are at work or in school.
- Proposed activities should be appropriate to the time constraints of MHM. For example, a tobacco cessation program may be unrealistic for this campaign with recruitment, retention, and outcome issues.
- It is our preference that anticipated participants are not limited to membership of a church, organization, etc. Events should be free and open to the public unless there is a defensible justification for an exclusively internal event.

- You must complete one Proposed Event Form (MHM Activity Sheet in MHGM) for each MHM event. For example, if you have two events, you must submit two completed Proposed Event Forms (MHM Activity Sheets) in MHGM. If you have four events, you must submit four completed Proposed Event Forms (MHM Activity Sheets) in MHGM. This form is located on the www.mih.ohio.gov website, on the Grantee Forms Page, within the MHM documents section. This document will be an upload in the project documentation section of the MHGM MHM application. Completion includes a 30 word or less description of each event, (written in complete sentences), the date, time, virtual platform (if appropriate) and location of each event as well as contact details of an event staff person up through the day of each event. If you miss this deadline, we cannot guarantee that your events will appear in the statewide calendar.
- Please provide accurate event start and end times, web-based platform type and registration links (if applicable) and venue phone numbers as this information will be listed on all materials distributed by the Commission. The form can be found on our website at www.mih.ohio.gov, at the bottom of the landing page. Then click on Grantee Forms and scroll to the MHM section. This document will be an upload in the project documentation section of the MHGM MHM application. Completion includes a 30 word or less description of each event, (**written in complete sentences**), the date, time, and location (or web-based platform) of each event as well as contact details of an event staff person up through the day of each event.

By submitting a proposal, the offeror warrants that it is now, and will not become, subject to unresolved findings, debts or monies owed to any State or Federal governmental entity, without notifying the Commission of such finding.
